

PANORAMIC DOORS

Key Features:

INDEPENDENT PANELS

- Independent panels create controlled air flow
- Manoeuvre the doors freely with just one hand
- Recover space lost with traditional folding door systems

HIDDEN HINGES

- No unsightly hinges that rust and tarnish
- Clean minimal design

INTERLOCKING PANELS

- Certified systems giving optimal protection from wind and rain
- Secure accredited (Pas24) interlocking panels
- No need for multiple locks

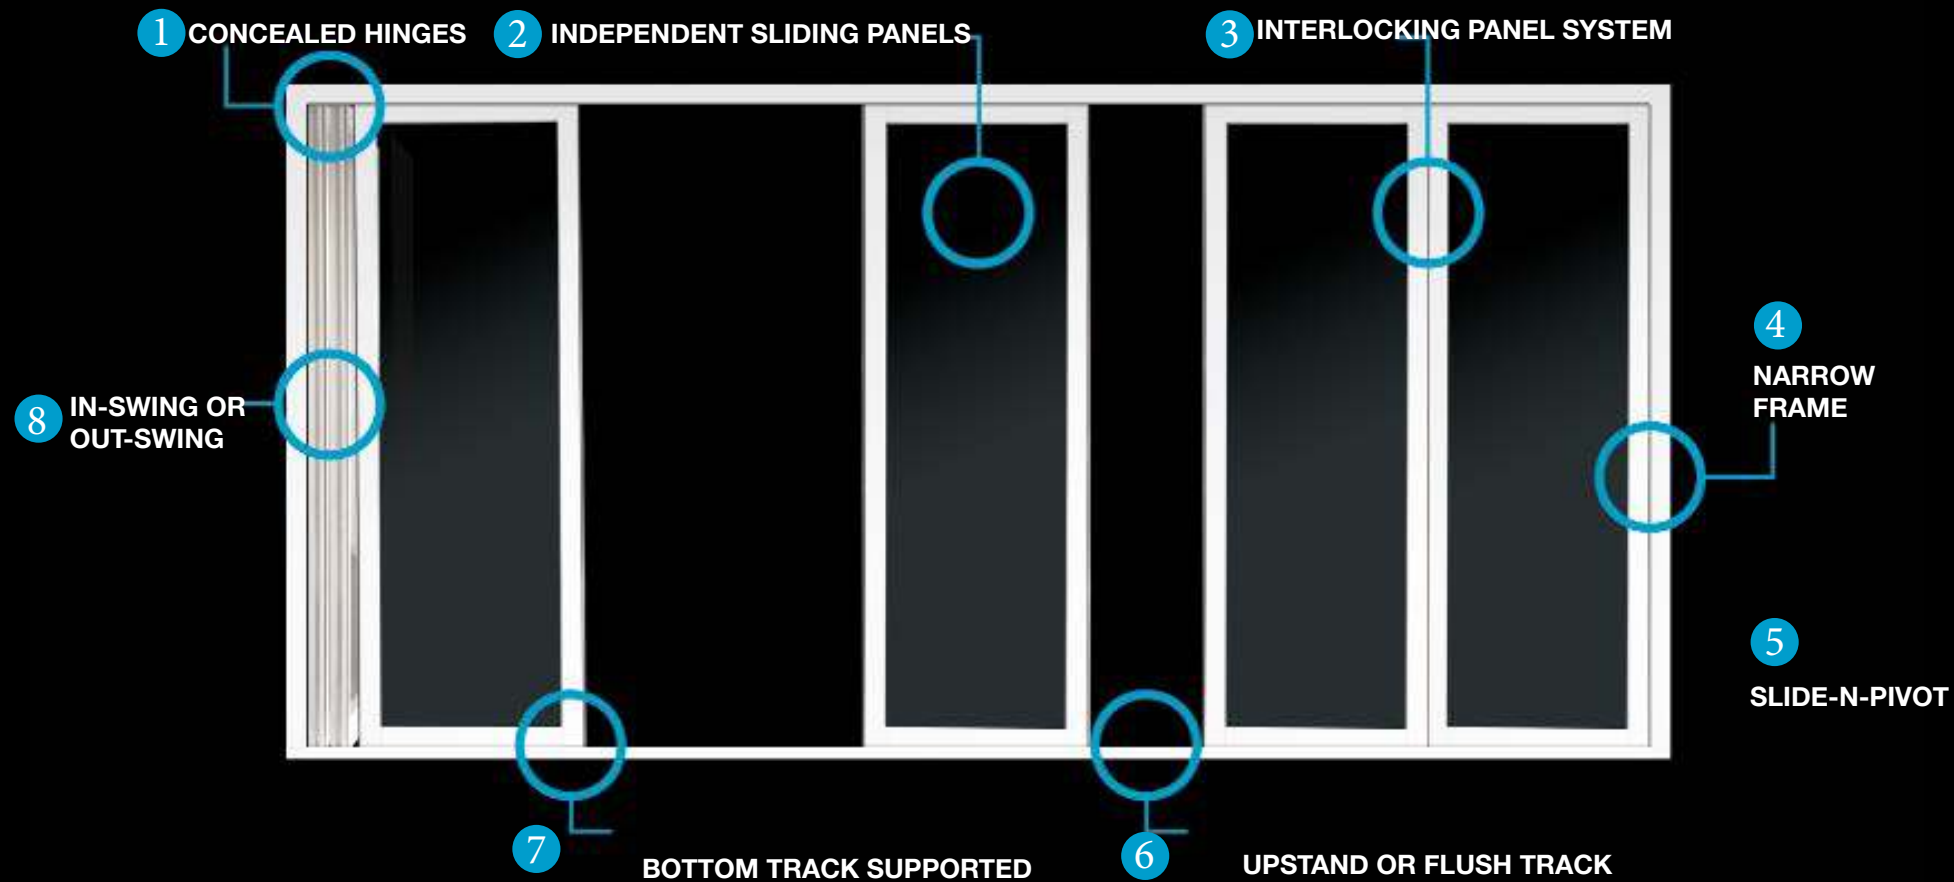

COLOUR OPTIONS

- Over 200 RAL colours
- Solid Oak internal finish

DESIGNED & MANUFACTURED IN THE UK

- Your doors are bespoke built to fit your opening
- All doors are manufactured in the UK

1. CONCEALED HINGES:

All hinges/pivot points are concealed for a more pleasing aesthetics and architectural sight-lines.

2. INDEPENDENT SLIDING PANELS:

No hinges, no binding, no sagging. Panoramic door panels glide with a smooth and easy functionality along the bottom track.

3. INTERLOCKING PANEL SYSTEM:

Interlocking “tongue and groove” panels provide for security and performance against the elements.....without the need for additional locking mechanisms.

4. NARROW FRAME:

Our narrow 3” (inside to outside) frame give you plenty of room to add a screen or blinds.

5. SLIDE-N-PIVOT OPERATION:

Utilizing our innovative, patented Magnaline® hardware system, the door panels slide-n-pivot independently for easier operation.

6. UP-STAND OR FLUSH TRACK:

Choose between the 3/4 up-stand track for maximum weather protection or the flush* track for a low profile appearance.
Note: *Flush track does not protect against water penetration

7. BOTTOM TRACK SUPPORTED:

Rather than hanging from the header, our panels ride on the bottom track reducing the cost of engineering and special structural support.

8. IN-SWING OR OUT-SWING:

Choose between in-swing or out-swing door operation.

**Note: Nail-fin and Retro Outer Frame is available in out-swing only.*

HOW THE PANORAMIC DOOR SYSTEM OPERATES

STEP 1: OPEN ACCESS DOOR

Turn handle to open the access door.

STEP 2: SLIDE PANEL AND PIVOT TO OPEN

Slide the next panel over toward the open access door. When in position, the sliding panel will click into place and pivot open

STEP 3: CONTINUE WITH REMAINING PANELS

Continue the same process with the remaining panels.

MULTI-POINT LOCKING

All of our Panoramic Door Systems come standard with a multi-point locking system on each access door.
